At any rate, there will be a "wet"

with liquor.

Taking it by and large, the situation a Canada seems to have presented it-cif at a propitious time, so far as the ducers across the border are con-

the south believed that there is any foundation for the reports from the Laited States that distillers from that muntry plan to invade Canada with their plants. In the first place, it is teasonably certain that the provincial egislatures of the Dominion will enact their "dry" laws at an early date, again leaving Quebec the only province really "wet," and it could not alone support all the distillers.

Editorial Significant

The restiveness with which the antihuor faction looks upon the situation
is found in the following editorial
comment from "The Toronto Globe":
"It is incumbent upon the governments and people of the eight provinces
that have prohibited retail sale to
protect themselves against the deluge
of liquor that will begin flowing from
the Province of Quebec after the New
Year. It must be remembered that in
a very short time national prohibition
will come into force in the United
States, and there will be no importation from the states south of the
border, save in bond from Great
Britain or other liquor exporting countries. The distilleries and breweries
of Canada will still produce liquor for
export and for consumption in Canada,
but that liquor will be available for
consumers in provinces that have pronibited the sale of liquor only if
ordered from liquor dealers in some
other province, and either shipped in
on such orders or released from the
warehouses of the distillers and
breweries.

US. Distillers

C'HICAGO, Dec. 27.—As a step in the "world dry" movement, Miss Anna Adams Gordon, president of the National Woman's Christian Temperance Union, and Miss Julia F. Deane, editor of "The Union Signal," the organization's official publication, plan European, Oriental, African and South American trips, Miss Gordon announced here to-day. Passports to Europe have been obtained. The tour of Europe will be begun in April, Miss Gordon said, to be followed by visits to the Orient, Africa and South American in turn.

"We will make a survey of the situation in the countries as it now is," Miss Gordon said. "We will carry the enthusiasm of America to them, aid them in building up their work through the organizations now existing in each country we will visit, and tell them of the results obtained here."

After attending the world W. C. T. U. Convention in London in April, 1920, Miss Gordon said she and Miss Deane would travel through England, returning to America in time to attend the National W. C. T. U. Convention at Atlantic City in November, 1920. As soon after that as feasible the tour of the other continents would be started.

The initial itinerary, she said, includes England, Ireland, Scotland, Switzerland, Italy, Spain, Portugal, Greece, France, Belgium, Holland, Denmark, Sweden and Norway. Miss Gordon said that the W. C. T. U. was looking into the increasing number of deaths reported through drinking of wood alcohol, and that something soon must be done about it. She added, however, "the rumber of deaths caused by that poison would not compare with the number caused by drinking so-called 'good whisky.'"

## The Story of This No-Profit Sale

This sale is a bid for future business, pure and simple.

There are no better shoes for children than Buster Browns. We are their sole New York agents. We want mothers to become better acquainted with Buster Browns. It is our conviction that every pair sold makes a permanent customer.

Accordingly, by co-operation with the manufacturer we arranged for this no-profit sale to make mothers better acquainted with these wonderful shoes.

We got from the manufacturer 4,800 pairs of one style-the largest order perhaps ever placed for a single style of children's shoes at one time. The maker sacrificed all profit. And we in turn do the same.

Buster Brown Shoes, for dress, street and school wear, will be found here in full range of styles and sizes.
